Atlantic

The feel-good solarium for pure relaxation

Bring home the feel-good factor.

Outside it's nothing but grey – so what? As of now you decide when the sun shines. No matter if there's snow piling up on your doorstep or rain beating against your window, with the Atlantic sunbed you can soak up a healthy dose of feel-good rays at any time. That way you'll not just be doing your toned complexion good, you'll also be toughening yourself up against harsh weather conditions in the best possible way – after all, the sun has a proven biopositive effect on your whole body.

The Atlantic solarium's gently curved substructure and canopy bathe you so cosily in soothing sunlight, its ingenious ergonomic shape giving you a special all-over tan. Even the larger ones among you won't feel left out in the cold: the Atlantic's generous bench surface and 2-meter long tanning tubes provide enough space even for those who like to stretch right out in the sun. The maximum tanning comfort is also reflected in a noiseless technical design: Atlantic is so quiet you can even hear music.

The Atlantic solarium is equipped with 24 100-Watt reflector tubes, all beaming only on the user. Also available with a face tanner upon request for that special in-depth tan for the head and neck. An optional Duo body fan stops you sweating, pampering you with a wonderfully cool 'Atlantic' breeze.

ATLANTIC

Extra-fresh extra. Duo body fan.

Your benefits:

- High level of comfort
- Extremely quiet
- 2-meter lamps in bench
- Ergonomic tanning tunnel
- Low-maintenance, easy to assemble
- Plug & Sun: 230-Volt power supply

A normal socket is all you need to start the 'Atlantic' sun shining. Just set the tanning time required and enjoy the pleasing power of the sun.

One more thing: the price of the Atlantic sunbed will bring a smile to your face too. Compared to other sunbeds with similar quality features and classy design, Atlantic represents superb value for money.

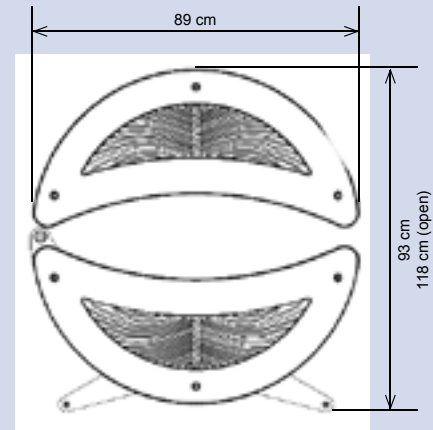

Ergonomic shape. For comfy sunbathing.

Style: the canopy is covered in a finely perforated metal sheet
